NARRATIVE OF EQUIPMENT OBJECTIVES**

Project: 37th Bomb Squadron Operations Facility
Ellsworth AFB, SD
PN FXBM993001

Objectives for the Equipment Package

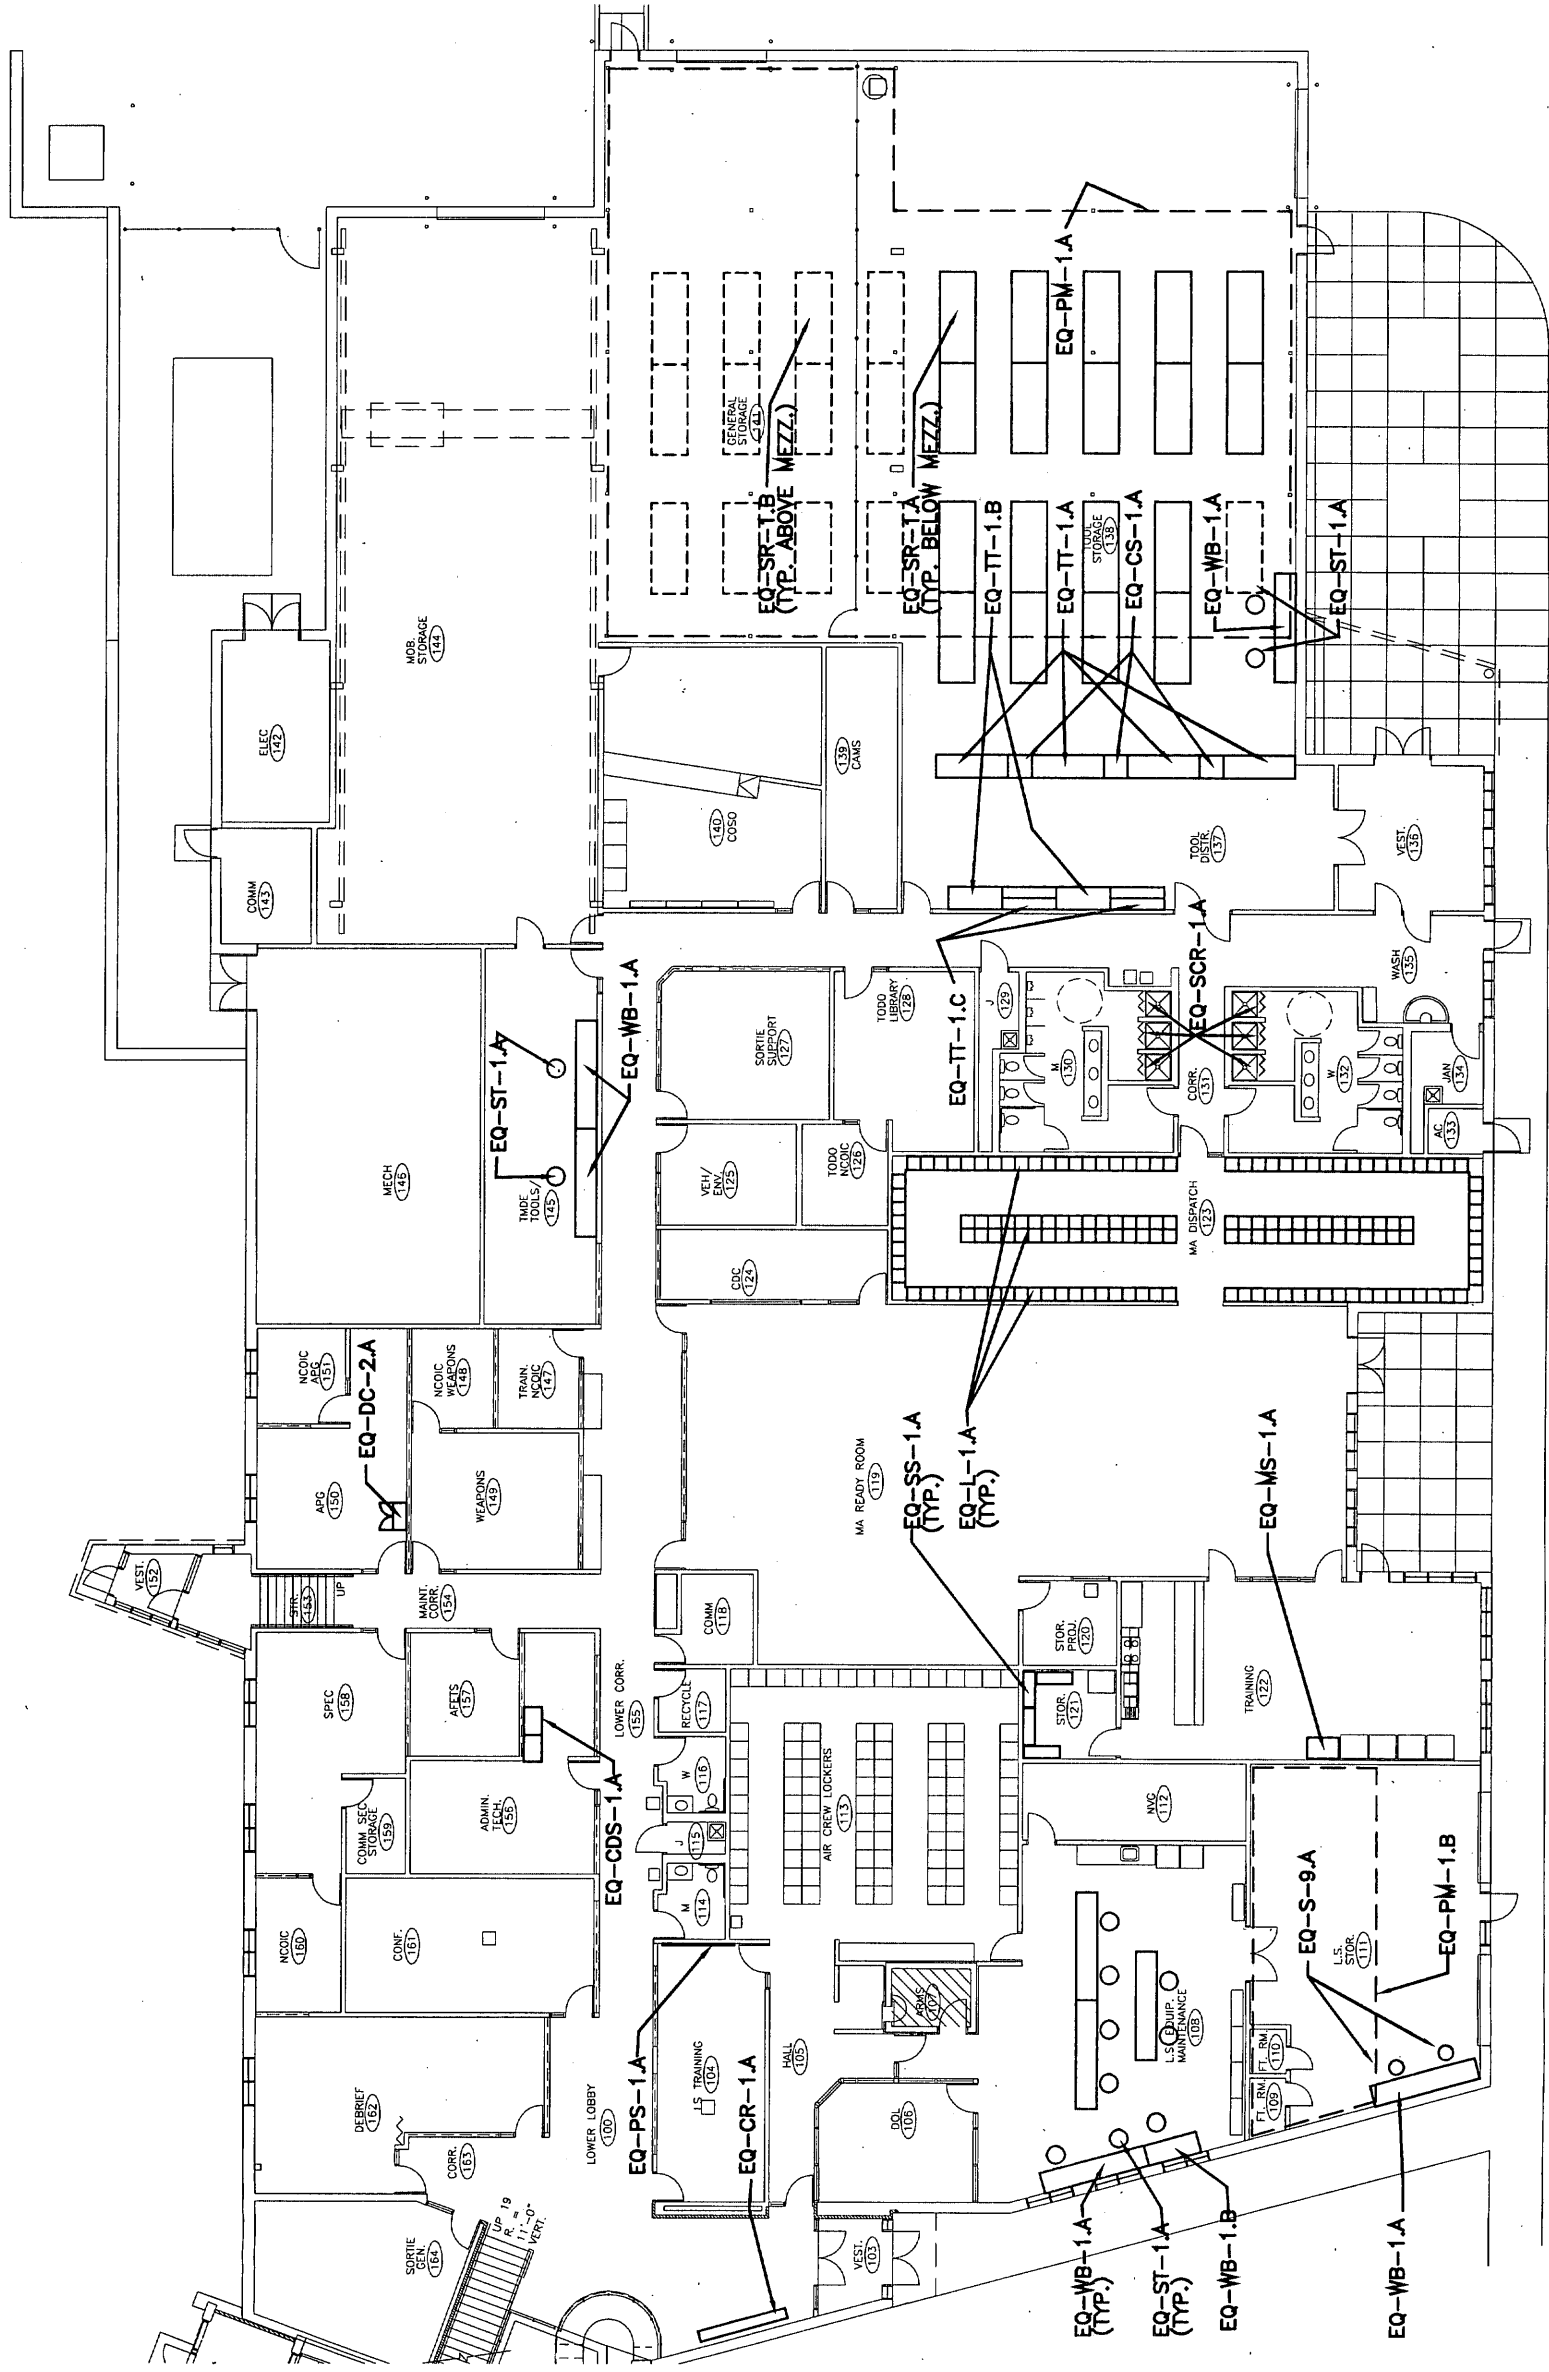

The objective of the Equipment Package for the 37th B-1B Bomber Squadron Operations Facility was to provide a portfolio of items to coordinate with the furniture, Appliance/Electronics and building design efforts and to create a finished environment intended to increase individual and organizational performance and efficiency. The items in the Equipment package include those that are not a permanent part of the building, not included in either the Furniture (C.I.D.) package or the A/E Package, and need to be accounted for in the design process.

The new building will accommodate primarily four groups, Command Section, Operations, Life Support and Maintenance. The upper level houses the Command section and most of the Operations functions, the mid-level contains the Ops desk, DO, and Scheduling offices and the lower level has the Life Support and Maintenance functions.

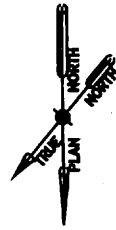

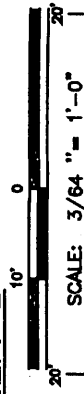

Equipment has been selected to provide as much flexibility as possible to the users. Many items are demountable and configurable to accommodate possible future changes in the users needs. Where Equipment items are in a finished area, the items selected and their finishes have been coordinated with the building finishes and furniture to present an aesthetic and efficient environment.

Deluxe Computer Cabinet

Our computer cabinet is loaded with outstanding features:

- Lexan window door houses monitor for easy viewing.
- Pull-out keyboard drawer and printer shelf; hinged drawer front for easy keyboard access.
- Full length hinged lockbar (padlock not included).
- Side mounted fan with replaceable filter provides temperature control.
- A power strip is located inside the cabinet with power cord access at the rear of the cabinet.
- Choice of forklift base or mobile base.
- Overall cabinet is 30"w x 28 1/4"d x 59 1/4"h.

Item Name: Storage Rack

Expand Your Useable Storage Space...

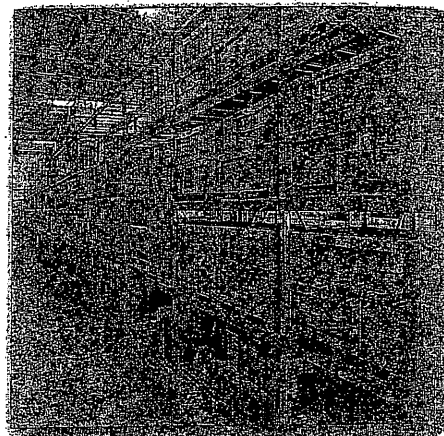

Low-cost Lyon Pallet Rack expands your useable storage space without expensive building expansion, maximizing all available space within your building - both horizontally and vertically. Racks hold pallets two, three, even four high without fear of crushing inventory. And, the rack's open design makes it easy for a forklift to access any load.

Complete Flexibility in Rack Height and Width

Stock upright posts are available in 60", 96", 120", 144", 168" and 192" heights, while stock beams are available in 90", 96", 108", 120" and 144" lengths.

Accessorize your Pallet Rack

It's easy to tailor your Pallet Rack to meet your individual requirements. Selections are on page 166.

Pallet Rack Features

UPRIGHT POSTS

Unique Design

Each upright post is a single piece of heavy-duty steel, formed into a unique shape that allows for easy assembly and disassembly. The post is designed to be inserted into the beam without the need for tools or welding.

The post is also designed to be easily adjusted to different heights.

The post is available in a variety of heights to meet your needs.

The post is also available in a variety of widths to meet your needs.

The post is also available in a variety of finishes to meet your needs.

The post is also available in a variety of colors to meet your needs.

Footplate

- Simplifies installation, contributes to rack stability and by anchoring upright to floor.
- Welded-on footplate features full 4" deep plate with upset punching for increased stability. Footplate punching lets shims nest.

Front-to-back Bars

- Pronged front-to-back bars seat in pre-slotted beams to prevent spreading on extra wide racks.
- Simplifies proper installation.
- Plywood support channels allow use of plywood or other decking material.

Steel Shelving

8000 Series 42" & 48" Wide Shelving

Wider for Greater Storage Flexibility

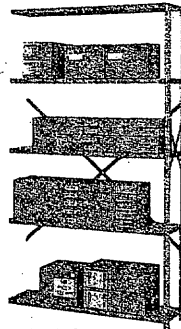

- Greater lateral clearance yields more shelf space for long, unwieldy items and offers more flexibility for storing packaged stock.
- Both 42" and 48" wide sections integrate with comparable 36" wide 8000 series units, and with each other.
- Features Lyon T-Post Uprights and "Box W" shelf design (see page 123 for more details).

Accessories For Work Benches

Accessories help keep tools, parts and equipment handy to speed your work.

Whether you choose pre-engineered selections (pages 18-19, 35-48, 50) or build your own work benches, Lyon accessories are easily added. Also, turn to pages 14-17 for new Sky-Wal II™ accessories.

(A) Shelves/Stringers

- 13 1/2" deep shelf has 1" flange at rear for attaching to legs - providing additional reinforcement.
- May be attached to bench at any time. Stringer included.

No. 2640 - for 48" w bench

Square Edge Tops

(A) Solid 12-Gauge Steel – 1½" thick

- Long service life. Ideal for heavy duty maintenance work.
- Easily cleaned and maintained.

(B) Tempered Pressed Wood Over Steel – 1½" thick

- Combines strength of steel & resilience of wood.
- Won't mar smooth or finished parts. Ideal for heavy assembly work.

(C) Tempered Pressed Wood Over Wood – 1½" thick

- Good all round top for general use. Thick, kiln-dried wood core surfaced with ¾" high-density tempered, pressed wood on both sides.
- Non-conductive, no warp and splinter free.
- Highly resistant to oil and chemicals.

(D) Laminated Hardwood – 1½" thick

- Ideal for all precision work.
- 2" w x 1½" Kiln-dried Maple or Birch strips waterproof glued for years of service.
- Natural finish, smooth work surface.

(E) Graphite Composite – 1½" thick

- Lightweight, high tech replacement for plastic laminate.
- Excellent for assembly, high tech production.
- Warp and splinter proof. Resists most chemicals, abrasion, corrosion, impact and moisture, including most oils and solvents.
- Gray marbled finish only. (Will not accept No. 2789 bench drawer).

180° Soft Front Edges – For Comfort

(F) Super Comp Top – 1½" thick

- Provides 40% harder work surface than laminated hardwood.
- Resistant to conventional liquids.
- Phenolic-board work surface is urea formaldehyde free.

(G) Laminated Hardwood – 1½" thick

- Ideal for all precision work.
- 2" w x 1½" Kiln dried Maple or Birch strips waterproof glued for years of service.
- Natural finish, smooth work surface.
- Used for electrical work, highly polished parts, fine tool and die making.

(H) Plastic Laminate – 1½" thick

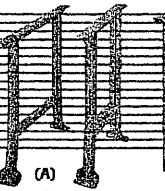

- 1½" x 45 lb. density board core.
- Ideal for light duty assembly.
- Backer sheet on bottom and postforming plastic laminate on top and sides. Chip resistant.
- Available in Dove Gray or Putty.

ESD Static Dissipative (not pictured) – 1½" thick

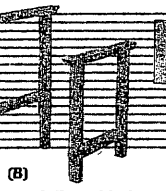

- Same as Plastic Laminate (H), with surface resistivity of 10⁶ to 10⁹ OHMS, 100 volts.
- Includes ground cord. (See ESD work stations on pages 46-47).
- Available in Dove Gray or Putty.
- 180° soft edge

No. 2651 - Fits 60" w
No. 2652 - Fits 72" w

(E) Panel Legs
Use with stringer/footrest for 60" or 72" w work stations.
No. 2800 - 20" d x 32½" h
No. 2803 - 54-68" w

Color Information: All bench tops are shown in black. Colors are available in Dove Gray or Putty.

Dove Gray
Add Prefix DD
to Cat. No.

Putty
Add Prefix PP
to Cat. No.

Wedgewood Blue
Add Prefix BB
to Cat. No.

Stringers are required on all benches utilizing legs (A) through (D).

*We strongly recommend use of a lower shelf in all roll-around bench applications to ensure stability.

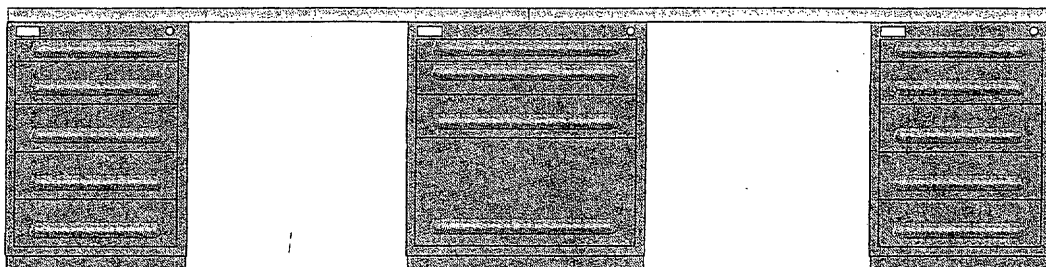

TOP THICKNESS + BENCH LEGS =
WORK SURFACE HEIGHT.
